Skills

LANGUAGES

- Ruby, JavaScript, HTML, (S)CSS
- English, Russian, French (Basic)

TECHNOLOGIES

- Sinatra, Rails, Bootstrap, jQuery, Chart.js, Semantic UI, ActionCable (WebSocket), Devise, AJAX, API Utilization, Nokogiri Web Scraping, CLI, SendGrid, Stripe, AWS, Git, Bash, SQLite3, PostgreSQL, Heroku, Redis, RSpec

Projects

ALPHA BLOG

- Built a Ruby on Rails blog application that allows users to make an account (and hence profile) to post blogs, link them to categories, and search for other blogs or users via a universal search

MESSAGE ME

- Created a simple Ruby on Rails web application for sending messages from one user to another in a main chat in real time via ActionCable

FINANCE TRACKER

- Ruby on Rails web application where users can add stocks to their portfolio to track in real time, including comprehensive pages for each stock with information obtained via the IEX Cloud sandbox API

PHOTO APP

- Built a Ruby on Rails web application where users can purchase lifetime access to upload and store photos to access from any remote location
